

CLAROTAN

Clarified Mimosa Extract

CLAROTAN is a clarified Mimosa extract suitable for the production of a wide range of articles such as all types of sole leather and tanned skins, as well as retanning of hides and skins in general.

Properties

CLAROTAN provides excellent penetration and good filling to tanned and retanned hides and skins. It contributes to the production of light colour leathers, results in even tanning and may also be used in retanning of light coloured leather. Soluble in cold water.

Typical Analysis

Physical aspect:

Hygroscopic, dust-free, smooth, beige powder

Ionic Character: Anionic

PCP: Free

Tannin Contents* (%): 70.0 ± 2.0
(74.8 ± 2.0 Dry basis)

Humidity at the time of packing (%): 6.5 - Maximum

pH (Aqueous Sol. 20% w/v): 4.0 - 4.5

Colour** Red: 0.8 - 1.0

Yellow: 1.5 - 1.9

Stability to electrolytes: Good

* Filter Method: analytical solution containing 0.4% w/v of pure tannin.

Higher tanning agent values than those mentioned above are acceptable.

** Standard colour test: Lovibond Colorimeter - 1cm³ cell - analytical solution containing 0.4% w/v of pure tannin.

Application

CLAROTAN may be applied either on its own or in combination with other vegetable tannins, synthetic and/or auxiliary products.

It is recommended that **CLAROTAN** be used as follows:

In vegetable tanning

Vachetta: 25 - 30% calculated on the hide limed weight

Belt leather: 35 - 40% calculated on the hide limed weight

Heel cover leather: 38 - 42% calculated on the hide limed weight

Sole: 45 - 50% calculated on the hide limed weight

In retanning

Nappa: 4 - 8% calculated on the hide shaved weight

Semi-chrome: 8 - 14% calculated on the hide shaved weight

Vegetalized: 15 - 25% calculated on the hide shaved weight

Nobuck: 5 - 10% calculated on the hide shaved weight

Storage

The properties of **CLAROTAN** powder shall remain unchanged provided that it is stored in a dry, aired place, in tightly closed packaging and protected from sunlight.

Presentation

CLAROTAN is available in dust-free, powder form, packed in 25 kg bags (net weight). It may also be supplied in bulk or on pallets of up to 2 tons in weight.
